WELEETKA NEGRO WHEN REFUSED VOTE

FILES SUIT FOR \$200 FOR THE
PURPOSE TO TEST
CASE.

THE NEGRO RACE WILL HELP

The Constitutionality of the Grand-
father Clause Will Be Fought
From the Contention in We-
leetka Case.

Weleetka, Okla., Aug. 26.—A suit was filed in the county court here today, the object of which is to test the legality of the grandfather clause. The case is F. D. Hines vs. W. D. Shallenberger and J. N. Jones, and was filed by T. J. Lillard, a republican lawyer and former law partner of Senator Sanders of Montana.

The plaintiff in his petition sets forth the fact that he was denied the right of suffrage at a recent special election on a gas franchise on account of his being a negro and unable to read or write any section of the constitution. He asks \$200 damages. E. W. James, clerk of the court, issued the summons, which was served today. The defendants represent both political parties, Mr. Shallenberger being a democrat and Mr. Jones a republican. They were on the election board in the precinct where Hines attempted to vote.

Weleetka was the first town in the state to hold an election under the grandfather clause. The plaintiff and his attorney are being backed by the negroes in the county and state and it is currently believed that the republican state committee caused the suit to be instituted in order to tie up the law and prevent its being enforced at the coming election.

W. D. Shallenberger, one of the defendants, has employed A. P. Smith, A. A. Hatch and Tom Hazlewood, local attorneys, and will appeal to the democratic state committee for assistance in fighting the case through the courts.

PREDICTS WAR BE- TWEEN U. S. AND JAPAN

Former Korean Attache at Wash-
ton Asserts That His Country-
men Bitterly Oppose
Annexation.

New York, Aug. 26.—The belief is general in Korea that the United States will be drawn into war with Japan within the next five years, according to Dr. S. H. Kimm, form-

erly an attache of the Korean legation at Washington, and now the representative in the country of Korean insurgents, who are waging a guerilla warfare in Korea against Japanese annexation.

"The patriotic uprising in Korea," says Dr. Kimm in a statement issued from his office here, "is kept alive largely by the conviction that in the near future Japan will find herself with a more powerful enemy on her hands, when Korea can regain her 4,243-year-old independence and throw off the yoke of annexation."

"It is probably not generally known that Korea is making a bitter struggle against the Japanese plans of annexation. The true state of affairs is kept concealed largely by the strict Japanese censorship over the telegraph and mails. It is impossible to get a letter from Korea that has not been opened and duly censored. We are compelled to rely for our advices upon letters carried by spies and members of the revolutionary party, or messages transmitted by runners by word of mouth to the watchers outside the frontier."

"As a matter of fact, the 20,000,000 Korean people are resting uneasily under the yoke and it will take but a spark, to set them off into a war of liberation. We believe that spark will be struck when the United States and Japan engage in war, and that the war will come within the next five years."

Former President Talks on Honesty
in All Walks of Life.

Grand Island, Neb., Aug. 26.—The west gave ex-President Roosevelt a warm greeting today. The people gathered in crowds at all places at which he stopped in his journey across Iowa and part of Nebraska, rang bells, tooted whistles, played bands and cheered. They stood on roofs, climbed telegraph poles and scrambled on top of cars on the sidings to see him, when the crowds on the ground grew so large that there was no other way. They began their welcome before Col. Roosevelt was out of bed and kept it up until long after dark. When the day was done, Col. Roosevelt said that he was greatly pleased by the way the people of the west had welcomed him back again.

He will arrive in Cheyenne, Wyo., in the morning and will make the

CENTER SCENE OF DOUBLE TRAGEDY YESTERDAY

Dr. W. B. Presnell Shoots His Wife
and Then Deliberately Suicides
As Citizens Rush To Scene

Another awful tragedy in Pontotoc county.
Dr. W. B. Presnell of the town of Center, ten miles west of here, shot his wife wounding her seriously and then deliberately suicided at their home yesterday afternoon shortly after four o'clock.

Domestic troubles is said to be at the bottom of the crime.

Dr. Presnell it is claimed by some who were acquainted with him was known to drink a little some times, but was perfectly sober at the time of his desperate deed. A few minutes before the shooting occurred he was at Copeland and Sloan's store, made a purchase and returned home. Upon his arrival at his residence he found a quarrel brewing between his wife and oldest daughter, a girl of fourteen years. He left the house, went over to a near neighbor, Dad Dunnigan and requested him to see if he (Dunnigan) could bring about a reconciliation between the mother and daughter.

Mr. Dunnigan who is an aged gentleman was building a hog pen at the time and replied he would be over in a few minutes as soon as he could finish the little task before him. Dr. Presnell retraced his steps and within a few moments shots, and screams of terror were heard coming from the doctor's home. Mr. Dunnigan with his daughter, Miss Laura Dunnigan rushed to the scene only to find Mrs. Presnell seriously, if not fatally wounded. Her crazed husband had fired three shots from a 38 calibre pistol, wounding her in both hands and the head. The last shot fired at the woman entered near the angle of her right jaw and made its exit through her upper lip. So close to her face was the weapon when discharged, her face was fearfully powder burned.

The doctor thinking he had killed his wife met Mr. Dunnigan at the yard fence as it is reported and told of his dastardly deed and furthermore expressed an intention of taking his own life. Mr. Dunnigan tried to dissuade the man, but to no avail, and when Mr. Dunnigan attempted

second set speech of his western tour in the afternoon at the cowboy's carnival.

The colonel was up early, he had to be, for he was called out of bed by the people of Marshalltown, Ia., who had gone to the stand before breakfast to see him and would not be denied. Clad in a raincoat and slippers, he made the first speech of the day at 6:45 a. m. From then on it was almost a continuous performance, for at every point at which the train stopped a speech was demanded. The colonel kept on talking until his voice began to grow husky and he was urged to stop. At Dunlap, Ia., someone pulled the bell cord just as Col. Roosevelt got on the back platform, and with his arm held aloft in his characteristic pose, was about to speak. The train pulled out, leaving the people standing there in open mouthed disappointment.

At Logan, the next point, Col. Roosevelt was allowed less than a minute for his speech, but he made such good use of it that thereafter attempts to suppress his speeches were given up.

The manager of a Wild West show on exhibition at Grand Island tried to help things along by wiring to the agent in charge of the Roosevelt train, urging him not to stop here. He said he was afraid that if the colonel should stop everyone would be at the railway station to see him and there would be no one at the show, which began five minutes after the time set for the colonel's arrival here. But the colonel stopped here and it looked as though most of the town was on hand. He made a short speech, after which the

to take the pistol from him said: "Don't you do it, I'll shoot you."

At this time Presnell walked to the corner of his house and sat down, and seeing a crowd of citizen who had heard the awful news coming threatened once to shoot into the crowd, but changed his mind, placed the muzzle of the gun against his right temple, pulled the trigger and instantly expired.

Though there were eye witnesses to the tragedy an inquest was held over the remains of the physician and a verdict that he died by his own hands was rendered.

The deceased will be interred at Center this afternoon.

At noon today Mrs. Presnell was resting fairly well and some hope of her recovery is expressed.

Dr. King of this city was called to the scene of the shooting yesterday afternoon and arrived there about eight o'clock. Dr. A. G. Ansell of Center was summoned by some one to come to Mrs. Presnell when she was thought to have been fatally wounded, but because it is said Dr. Presnell had made some threats against him did not dare to go till after he learned Presnell had killed himself.

County Attorney Wimbish and Under-sheriff Miles went to the scene of the crime last evening, arriving about the time Dr. King did.

Besides his wife Presnell leaves three daughters.

He was a native of Missouri, but had been in this country several years. For a while he was telegraph operator for the Frisco at Francis. Later he practiced medicine at Oakman two or three years, came to Ada for a few months and moved from here to Center last fall.

Rumor has it that his domestic relations had been for a long time far from congenial; that quarrels were of frequent occurrence at his home. It is said that he attempted to kill his wife once before, and that he made the statement just before he shot himself that he was jealous, but had no right to be.

people of Grand Island went to the show.

Many Hangers-On.
When Col. Roosevelt left New York all of the members of the party traveled in two cars, which were attached to regular trains. The number of cars has grown until now there are six of them, made up in a special train. At Chicago yesterday one car was attached carrying a party of men who are going along merely to see what happens. George Ada is one of them. Three more cars were

added today and the railroad officials gave up all hope of hauling them on the regular trains.

Archie Roosevelt met his father in Omaha this afternoon and rode with him as far as Fremont, Neb. He has been staying on Ceth Bullock's ranch in North Dakota.

Railroad Bridge Burns Near Durant.

Durant, Aug. 26.—A burning bridge interrupted traffic on the Frisco railroad yesterday morning. The damaged structure is known as bridge No. 606 and is located near Pirtle. Early this morning a passing farmer discovered the trestle was in flames and shortly afterward the fire was also discovered by a section crew en route to work. They sent in a report of the trouble so that trains might be warned of the danger, and then commenced to try to quench the flames. It was nearly noon before the fire was finally extinguished.

The east bound train continued east to the scene of the accident and the west bound train approached from the other side. Baggage and passengers were then transferred and the trains reversed.

The origin of the fire is not known.

Dr. Gallohr, of the firm of Drs. Wilson and Gallohr, eye, ear, nose and throat specialists of Shawnee, will be in Ada at Hotel Harris the 2nd and 4th Mondays in each month. Glasses fitted.

The outcry of the republican press to the effect that Senator Gore is unfitted to be considered for the presidency because of his blindness is not well taken. Indeed, many of the elements most necessary in the equipment of a president are more highly developed by the mere fact of blindness. And never since the time when the blind Apollon Claudius saved Rome has it been maintained that a man cannot serve his country well because of the lack of vision.—Shaw-nee Herald.

THE WIFE OF THE GENIUS.

We hear of Roosevelt, and Taft and Shakespeare and Carlyle and Emperor William and all the rest of the celebrities living and dead, of kinds and princes and potentates, of great captains and great diplomats but what do we ever hear of their wives? What do we ever read of the part which the wives of all the great men living and dead have played in the making of their careers of the patient years of toil and strife which the women have endured, of the care of the children of the infinite diplomacy exercised in getting along with genius which was ever perverse and rather inclined to be variable? What do we ever read of the comfort and consolation, which Mrs. Lincoln was to the savior of the Union during the dark days when it looked as if the disruption of the country was going to be an accomplished fact? What do we ever read of her suggestions to him in the hours when they were alone, suggestions which had a world-wide influence and which decided the fate of men and of nations?

In his lonely hours at St. Helena the thoughts of Napoleon were not with Marie Louise, the companion of his later days, and the queen of the empire, but with the discarded Josephine, with the partner of his earlier joys, when he was an unknown soldier of fortune, struggling for recognition before the revolution

gave him a chance to demonstrate his almost superhuman capacity for command. It was to Marie Louise that his mind turned, and today the glorious days of the Napoleonic empire are the days of Josephine, and not of Marie Louise.

Grant always looked to his wife for advice and counsel, for the wisdom which he did not possess, for that superior instinct, or whatever you call it, that women have, to extricate him from all of his delicate situations.

The wife of McKinley was a lonely figure of suffering for years and years and the tenderest memories of the martyred president are those which cling around his devotion to his wife in her affliction, and his last conscious thought was of her and for her comfort and care.

The wife of Robert E. Lee was an unknown character so far as the eyes of the world were concerned, but for more than a generation he stopped in the midst of the roar of battle to address to her those messages which only a loving and a great heart can write to the companion of all his life, to the one who shares in equal measure his joys and his sorrows.

The wives of the geniuses are the real heroes. They bear all of the burdens and they get none of the applause. Not for them is the blare of trumpets and the plaudits of the multitude, not for them is the laurel crown and the medals and gowns and uniforms and degrees. Theirs is always the sterner and the more thankless part. Theirs is the part which requires repression, which requires the daily exercise of a heroism superior to that of the battlefield, which requires head and heart and in which the heart is often wounded, but which always beats true and strong for the object of its affection. Theirs is the part to suggest, to advise, to counsel along the ways of wisdom and to reflect that when this is done they must still remain an unknown quantity, that their work must be discounted and that somebody else will get the credit and the adoration of the multitude. That is why the wife and the mother of the genius, and the average plug citizen, for that matter, must always in the minds of thinking men, occupy the nobler part, why she is enshrined in the affections of mankind and why she is entitled to the continuing gratitude of mankind, a gratitude which is often grudgingly bestowed, because we men like to think that we are the arbiters and the architects of our own fortune. But in our hearts we know that we are not. We know when we tell ourselves the truth, that it is the mother and the wife who makes us what we are, who are responsible for all of our ideals, and who keep alive in us the simple faith which was preached on the plains of Nazareth more than a century and a half ago.—Tulsa Democrat.

WALL STREETS DISCONTENT.

Wall Street estimates that approximately \$500,000,000 will be spent this year by Americans for the purchase of automobiles. Of this vast sum probably 85 per cent will be for machines of domestic make, the only foreign product in which will be rubber for the tires, of which about \$75,000,000 will be used.

It is computed by statisticians of New York's financial district that half of this outlay would be used for stock market speculation but for the nation wide craze for "joy cars." With such an enormous amount of money diverted from stock trading channels conditions in the street are now akin to this that prevailed during the 1907 panic. In six months there has been a shrinkage of \$150,000,000 in the market value securities dealt in upon the stock exchange, due mainly to lack of public support. The lambs, always a fruitful source of revenue for wily bulls and bears, no longer gambol with their old abandon and have become as scare as hen's teeth about Wall, Nassau and Broad streets. All that are left are the professional traders to whom the limited pickings are not over attractive.

In the hope of checking the spread of the automobile tide, the assistance of local bankers has been enlisted. The latter are now vociferously deprecating the mania. They claim it is inoculating the small business men of the country as well as the affluent merchants of the city, and that in order to gratify their appetite for machines this class is mortgaging its homes and property. This cry of alarm, however, is not borne out by the mortgage records which show but a normal state of borrowing on real estate. Neither do the reports of the clearing house indicate that bank deposits are being appreciably withdrawn to enable customers to buy machines. What money is being used by the public for the purchase of cars is its surplus cash which in other years found

its way to stock exchange houses for less exhilarating employment. This is the money that created inflated and fictitious markets and enabled the gamblers of the street to live in opulence while their clients grew two grey hairs where there was one before.

Throughout the financial district, especially among those who depend upon the outside public for their business, there seems to be a disposition to deplore the recent purchase by J. Pierpont Morgan of the controlling interest in one of the largest of the domestic automobile factories. They think it will have a bad effect on the market and help to retard the return of property in the street by giving undue prestige to the industry to whose development they attribute most of their troubles. Their chagrin recalls the feeling existing in the district some years ago during one of the intermittent periods of depression to which it is subject, when John D. Rockefeller instead of supporting a declining market dumped several of his millions into the stock of the quick lunch restaurants of the big eastern cities, which have since netted him handsome profits.

In reply to Wall street's lament about the diversion of money from the stock market, the president of one of the large automobile companies this week threw a jolt into the enemy's camp in a statement saying that the public had grown tired of frittering away its savings in Wall street gambling that rarely netted it anything but headaches and insomnia, and had determined to get some wholesome pleasure out of its cash through the purchase of machines that would enable them to give enjoyment and recreation to others as well as to themselves.

PREACHES IN OPEN AIR ADVERTISES HIS CHURCH

Spokane, Wash., Aug. 27.—"Get it out o'doors," followed by the words, "restful, refreshing religion, served on the cool comfortable, capacious lawn," is the heading of announcements in newspaper and big signs placed by officers of the Dean Avenue Christian church to attract people to a series of popular sermons by the pastor, Rev. Dr. Bruce Brown who is an advocate of the liberal use of printer's ink. Dr. Brown is assisted by a choir and a male quartet. The first Sunday evening service on the lawn of the Bryant school, where Dr. Brown preached upon "Popular Fancies, Fads and Follies," was so well attended that the congregation has decided upon open air meetings the rest of the summer. It may be added that Dr. Brown, who worked in a printing office when a boy, has converted many of his congregation and others to the value of advertising. He believes that the newspaper is the greatest and best medium to reach the masses, and in proof of this he points to the crowds at his meetings at a season when many prefer to pass the week-end in camps and at lake and forest resorts.

MRS. CUDAHY HOPES TO GET BACK HER BABIES

Kansas City, Aug. 26.—"It will be only a matter of time until I have my babies back with me again," confidently declared Mrs. Edna Cowin Cudahy, who returned to her home at Thirty-sixth and Walnut streets yesterday morning to pack up her personal property, and make arrangements to depart for Mackinac. She will visit with her children, who are now there in charge of Mr. and Mrs. Michael Cudahy, their grandparents, to whom they were given in accordance with a decree of divorce granted Mrs. Cudahy Tuesday from John P. Cudahy. Under the terms of the decree the children are to remain in charge of their grandparents and at the latter's death to be cared for by an aunt, who will be the guardian.

"I am buoyed up with the hope that it will not be long, perhaps, until the children will be returned to me," continued Mrs. Cudahy. "In any event, I will go to see them and be with them a great deal of the time."

Mrs. Cudahy has not definitely decided on her plans following her visit to Mackinac. She probably will take apartments in Kansas City, where she has lived for ten years.

OUR TAX ON SUGAR

EVERY FAMILY PAYS A TRIBUTE
OF \$8 A YEAR TO THE
TRUST.

FRANK C. LOWRY'S FIGURES

They Show This Household Necessity
Is Taxed Nearly Eight Times as
Much as Diamonds—Refining
Interests Do Not Need
Protection.

That the "sugar trust" through the agency of the protective tariff taxes every family in the land to the tune of about eight dollars a year, or two cents on every pound is the conclusion of Mr. Frank C. Lowry of New York.

Mr. Lowry knows whereof he speaks. He is secretary of a committee of wholesale grocers formed to assist in obtaining cheaper sugar for the consumers through a reduction of duties on raw and refined sugar. From a leaflet issued by him we quote as follows:

"Were the duty on sugar entirely removed, this saving of two cents a pound to the American working people on the amount of sugar which they consumed last year would be \$142,723,347.20. This means that when a housewife purchases ten pounds of sugar for which she now pays 50 cents, she could under 'free sugar' buy the same quantity for 30 cents.

"To give an idea of how this sugar tax compares with the duty on other articles, I give the following examples taken from a statement prepared under the direction of the committee of ways and means:

Sugar, duty 78.87 per cent.
Champagne, duty 56.16 per cent.
Automobiles, duty 45 per cent.
Furs, duty 35 per cent.
Wheat, duty 26.54 per cent.
Rare Paintings, duty 20 per cent.
Diamonds, duty 10 per cent.

"The public benefits of cheaper sugar would not be merely the lower cost of that material to the consumer. Under the present tariff the relatively high cost of sugar seriously burdens our fruit-canning and preserving industries, and by increasing the cost of these products, limits their consumption. With cheaper sugar these articles could be sold at lower prices and their consumption would be largely increased.

"Preservers like H. J. Heinz company if Pittsburgh have found it necessary to establish factories in England where they secure the advantage of cheap sugar.

"The National Canners' association which numbers nearly 3,000 firms, at their annual convention in Louisville, Ky., February 1 to 6, 1909, passed a resolution urging congress to abolish the duty on raw and refined sugars, because, as stated in their resolution it is greatly desired to offer the products of our factories to the consumer at the lowest possible cost.

"The 78.87 per cent. tax on sugar cannot be defended on the ground that our refining interests need this excessive protection, as Mr. Claus A. Spreckels, president of the Federal Sugar Refining company, a concern independent of the so-called 'sugar trust,' testified on November 17, 1908 before the ways and means committee that the domestic sugar refining interests needed no protection provided they were supplied with free raw sugar, and that he favored the admission of both raw and refined sugar entirely free of duty."

GIRL'S DEATH MYSTERIOUS.

Oklahoma City Girl Suicides Because She Can't Find Man.

Oklahoma City, Aug. 25.—Miss Maud Stephenson killed herself in this city last Sunday evening and the facts only became known today. Miss Stephenson was 25 years old, and she came to Oklahoma City in search of the man with whom she thought she would be married on arrival here. After searching days and days for him, being assisted by the police, she failed to find him, and became despondent. There is great mystery surrounding the girl's death, no one being willing to give out what information they are in possession of.

Her remains were interred Monday afternoon. The records at the city board of health show the girl killed herself with chloroform.

ADA GETS FIRST COT- TON BALE TODAY

Brings Seventeen Cents Per Pound
Grower Gets \$20 in Premiums.

Dave Reynolds brought in the first bale of cotton to Ada this year. It was ginned at Andy Thornton's gin, weighed 418 pounds and was bought by W. K. Chaney, representing Wolfe & Co., of Dallas, Texas, at 17c per pound. In addition to this Mr. Reynolds received premiums amounting over twenty dollars.

Mr. Reynolds brought the two first bales into Ada last year. They were bought by the same company that bought this bale, but he received only twelve and one-half cents per pound. We were about to omit that he received his ginning free. The bidding on the cotton this afternoon started at about 14 cents, but began to climb by steady bounds. When Mr. Chaney offered 17 cents he popped his whip over his team and said, "It is yours." He wanted to let good enough alone.

GETS ON A SPREE; SHOOTS THINGS UP

Ivey Wright who has a reputation of being connected with booze a good deal who a few days ago was released from jail where he had been serving a sentence for selling whiskey and who started off on the road to reformation for the tenth time was temporarily reformed this afternoon. It happened that he got drunk again, armed himself, got in his own house, and began to shoot things up. Walter Goynes was called to quell him. Goynes demanded a surrender; Wright refused and made as if he would use a gun; Goynes was the quicker and knocked Wright down with his gun. Now Ivey is coming to himself in the city jail.

Last Friday our city was honored by the presence of Tom Starr, one of the remnants of the Starr gang, which infested the Chickasaw country in the early days. given 80 days on the county road gang. Last week, during the temporary absence of the guard, he beat a trusty nearly to death and got away, arriving in Francis Friday. In some strange and unaccountable manner he secured some intoxicating liquor and grew braver and braver until he considered himself valiant enough to take charge of the town and run it according to his ideas of municipal government. He had in some way become possessed of two revolvers, but laid them aside while he went to the City Meat Market to get a butcher knife which he needed in his business. He got the knife, but about this time Marshall Bob Duncan took a hand in the game and requested Tom to give up the knife. Thomas refused and he and Bob immediately mixed. The bad man was quickly overpowered, but not until he had made two or three thrusts with the knife and Bob received two flesh wounds on the hand. Deputy Marshal Lance arrived and the prisoner, still fighting, was landed in jail, where he amused himself by battering all the furniture into kindling wood. Mr. Duncan took him to Wewoka Sunday and turned him over to the authorities of Seminole County, who were very glad to get hold of him again. His little holiday will add about six months to his sentence.

Starr, like most sons of outlaws, is a degenerate. He has none of the intelligent deviltry and cunning of his notorious father. When sober he is a harmless, loafing fellow, but when he gets a pint or two of "mule" in his carcass he becomes a dangerous maniac. A term at McAlester is what he needs and it is only a question of time before he gets it.—Francis Wigwam.

TIPS On Choosing a Bank

Before lining up with a bank you should investigate several points in connection with it. In the first place ascertain whether or not the bank is prospering and developing along with the other lines of business of the community. If a bank's business isn't prospering something is wrong. In the second place are the officers and directors of the bank good, safe business men who deal squarely with the people? Watch out for a bank operated by tricksters or sharpers. In the third place do the directors really direct or are they merely figure heads? Look out for a bank whose directors know little or nothing about its business.

We want you to investigate this institution. We know its business is prospering and increasing right along. You know its officers and directors and we believe they are safe, honorable, business men. The directors of this bank say what shall and shall not be done. They pass upon the loans regularly and their instructions are carried out to the letter. This bank is what they make it—A Strong, Prospering, Conservative institution.

ROBERSON HANDS IN
RESIGNATION

portance." Governor Haskell was in Muskogee. He was called up over the telephone and in response to an inquiry said: "I have not been in Oklahoma City today and so I have no knowledge of Judge Roberson's resignation. It has not reached me as yet and until it does I cannot say why his resignation has been tendered." It is reported in Oklahoma City that the reason for Judge Roberson's resignation is that he desired to be made chairman of the capital commission and that when Tate Brady of Tulsa was honored with that appointment, he decided to send in his resignation. It is said also that he was in favor of another location for the state capitol.—From Shawnee Herald.

Robber Gets \$13.

Muskogee, Okla., Aug. 25.—Declaring that an unknown burglar entered his room about 11:30 last night, and robbed him of \$13 in money, John McAlister this morning made the foregoing complaint at police headquarters. McAlister lives on North Ash street. Last night he arrived home shortly after 10 o'clock and retired. About 11:30 his mother awoke him, saying that there was a man in the house. McAlister got up and heard the man go out the kitchen door. He rushed to the rear of the house, but was too late to get a view of the midnight prowler. The police have absolutely no clue to work on.

Court House News.

The socialist are mad at Bud Yancy and charge him with disturbing the peace. Bud says the truth of the circumstance is: He and a good socialist preacher-speaker and one of their most popular and appreciated lay members left Ada with a full pint of Sparks' best to meet an appointment and by the time they arrived at the appointed place they were just about ripe for the speel, and the parson speaker made an assertion against democracy, which he proceeded to deny, and was not as choice in his language as he could have been and the result was the parson speaker was disturbed. We think it was that threatening look that Bud gave him that disturbed him most.

BIG OIL FLOW STRUCK
AT BEGGS, OKLAHOMA

Beggs, Okla., Aug. 27.—At a depth of 2,240 feet and with the bit only three feet in the sand, the Quaker Oil company, on the northwest corner of the southwest section 9-14-12, three miles south of this city, brought in one of the best producers in this section Sunday. It commenced to flow in the tank at 2 o'clock and by 6 o'clock the gauge showed it running a little stronger than 90 barrels of oil per hour. Russian Sturgeon Invading Mexico.

New Orleans, Aug. 25.—Numbers of so-called "Russian" sturgeon, the first that have been the source of millions of dollars of revenue to Russian fishermen on account of the roe which provide the world's markets with caviar, are now in the Mexican gulf, according to reports received by the game and fish commission of Louisiana.

The migration of these fish into the waters hitherto uninhabited by them seems unexplainable, but this movement is now putting hundreds of dollars into the pockets of Louisiana fishermen.

A SHERIFF AFTER A GHOST

Noises and Acts of Vandalism Frighten a New Jersey Man.

Newton, N. J., Aug. 26.—A haunted house mystery is occupying the attention of Sheriff Harris and his deputies here. George Dunlap, a wealthy farmer, reported yesterday that for two months his big Colonial farmhouse has been "haunted" and that he and his wife have been driven almost frantic by rappings and other weird noises. He said some pieces of clothing had been cut in places, a Bible had been slashed, canned goods had been spilled and his rubber boots, which he left in the kitchen, had been thrown into a cistern. On four occasions articles had been thrown downstairs when no one was on the upper floor, and later three fires were started in the house.

The sheriff after a preliminary investigation arrested a woman relative of Dunlap's, but she denied any knowledge of the reasons for the ghostly doings, and a further investigation is being made.
